

Do's and Don'ts for Lab Test

Do's:

1. You need to solve the given problem. (e.g. Simplify the equation, Draw Truth Table)
2. You must draw the Circuit Diagram for the solved equation.
3. You need to implement the circuit in your designated trainer board.

Don'ts:

1. You don't need to memorize pin numbers (Handbook will be provided).
2. You don't need to submit any report or bring any design.
3. You're not allowed to bring any material (except for Pen, Pencil, Eraser, Sharpener) during the exam.
